

Rebuilding Uttar Khanishail Indarparaa Mosque

We are seeking your support to redevelop the Uttar Khanishail Indarparaa Mosque.

Following a structural assessment, civil engineers have advised that the existing mosque is no longer safe. The reinforcing steel has severely rusted, weakening the structure, and they have warned that the building could collapse during a significant event such as an earthquake or major ground movement.

Our vision is to build a new two-storey mosque, with a dedicated prayer area for women on the first floor, providing a welcoming space for all members of the community. The new mosque will also be extended towards the Eid Gaa area, allowing many more worshippers to pray together during daily prayers, Jumu'ah, Ramadan, and Eid.

Located beside Dhakadakshin Degree College, which has over 4,500 students, the new mosque will provide a valuable place of worship for both male and female students, making it easier for them to perform their daily prayers.

With your support and the will of Allah (SWT), we hope to create a safe, modern, and inclusive mosque that will serve the community for generations to come. Every donation, no matter the size, will help make this vision a reality. May Allah reward you abundantly for your generosity. Ameen.
